Pardyze Class Diagram

Customer
- status : String
- address : String
- customer_id : Int

+ register()
+ viewProfile()
+ updateAddress()
+ viewOrderHistory()

User
Full_Name :String
User_Id : Int
email :varchar
Password :varchar
Phone : varchar
created_at :timestamp

+ login()
+ logout()
+ updateProfile()
+ changePassword()

Staff
- position : String
- status :String
- department : varchar
- staff_id : Int

+ viewDashboard()
+ viewAllStaff()
+ viewStaffDetails()
+ searchStaff()
+ addStaff()
+ updateStaffDetails()
+ deleteStaff()
+ assignRole()
+ updateStatus()
+ updateStaffPassword()
+ checkPermission()

Category
- category_id : Int
- category_name :varchar

+ addCategory()
+ updateCategory()
+ deleteCategory()
+ viewCategories()

Product
- product_Id: Int
- product_Name: String
- Status: String
- description: varchar
- price: decimal
- stock: Int

+ addProduct()
+ updateProduct()
+ deleteProduct()
+ viewProduct()
+ checkAvailability()

Cart item
- quentity :Int
- size :String
- cart_item_id : Int

+ addToCart()
+ updateQuantity()
+ removeFromCart()
+ calculateSubtotal()

wishlist
- wishlist_id : Int
- created_at : timestamp

+ addToWishlist()
+ viewWishlist()
+ removeFromWishlist()
+ moveToCart()

Supplier
- supplier_id :Int
- supplier_name :Sring
- status : String
- contact_person : varchar
- email : varchar
-phone : varchar

+ addSupplier()
+ updateSupplier()
+ deleteSupplier()
+ viewSupplier()
+ updateStatus()

password Reset Tokens
- reset_id : Int
- used_at : datetime
- created_at :timestamp

+ generateToken()
+ validateToken()
+ checkExpiry()
+ resetPassword()

order_item
- item_id : Int
- size :varchar
- quantity :Int

+ addOrderItem()
+ updateQuantity()
+ removeOrderItem()
+ calculateSubtotal()

order
- order_id : Int
- total_amount : Decimal
- status : String
- order_date : timestamp

+ createOrder()
+ viewOrder()
+ updateOrderStatus()
+ calculateTotal()
+ cancelOrder()

Order shipping
- order_id : Int
- city :String
- postal_code : varchar
- shipping_fee : Decimal
- address : String
- email : varchar
- phone : varchar
- payment_method :string
- full_name : String

+ saveShippingDetails()
+ updateShippingDetails()
+ calculateShippingFee()
+ selectPaymentMethod()

inventory
- inventory_id :Int
- quantity : int
- reorder_level : Int
- last_updated : timestamp

+ addStock()
+ reduceStock()
+ updateStock()
+ checkStock()
+ checkReorderLevel()

product_reviews
- title : String
- rating : Decimal
- review_id : Int
- review_text :varchar
- created_at : timestamp

+ addReview()
+ updateReview()
+ deleteReview()
+ viewReview()

Return
- return_id : Int
- reason : String
- status : String
- return_date : timestamp
- admin_notes : String
- processed_date : datetime
- refund_method : varchar

+ requestReturn()
+ approveReturn()
+ rejectReturn()
+ updateReturnStatus()
+ processRefund()
